Clicking on any of the 'Install' buttons shown under the app names will install them on your computer.

Warning

Installing all the Adobe apps will use up an a large amount of disk space. Consider what you really need. If, in case you have no connection to Edpass while using Creative Cloud apps, an option to 'continue signing up for a trial account' is mentioned, don't do it.

Signing up for a trial account, using your school email address, will render your school supplied 'full account' useless and cause quite a bit of hassle to get it restored.
